

# Inclusive Partners

## Virtual Training Offerings

### **Inclusion - is it still a thing?**

Today's learning environment is challenging at best, how do we support all children in their growth and development? Let's talk about what inclusion means, how important it is, especially now, and most importantly, how to individualize the supports that we provide for all children and their families. Come discuss your experiences, strengths and challenges so we can learn from each other.

2 hours, Set One; *Core Knowledge Category, Special Needs*

### **The ADA and You**

Do you think the Americans with Disabilities Act seems overwhelming? Scary even? It can be if you look at the legislation from a "have to" point of view. Come learn and discuss how we can move from the "have to's" to the "get to's" of inclusive policies and practices.

This course is not presented by legal counsel.

### **Inclusive Practices That Work**

Join us in exploring commonly used support strategies such as developmentally appropriate practices, universal design, positive behavior supports, embedded instruction and interventions, picture exchange systems, visual supports and social stories. As you begin to apply these tricks of the trade, all your kids will benefit.

2 hours, Set Two; *Core Knowledge Category, Special Needs*

### **Meaningful Connections: Different Perspectives**

Having difficult conversations isn't unique to the disability world. Come explore the complexities of culturally diverse relationships.
